“RULES AND PRIZES OF THE COMPETITION”

1. INTRODUCTION

TARGET PAINTING PRIZE is a private initiative for the promotion of art. Our goal is to give visibility to creators, motivate artistic production, and offer content to enthusiasts, collectors, and galleries. Interaction, dynamism, and global reach are the hallmarks of this artistic project. Beyond the competition, the organization will promote other events, collaborate with art schools, artist residencies, and will apply itself to the artists' own drive for success.

The excellence of TARGET PAINTING PRIZE is marked by its vocation to become a global window through which artists of every pictorial style, technique, culture, and significance can emerge. Emerging, amateur, professional, and established creators have the opportunity to showcase their work on a widely broadcast platform and, consequently, position themselves in the market. Their work will be analyzed and fairly judged by reputable jury members and considered for acquisition by collectors of established prestige.

In the following pages, we explain how to participate in this first edition of the international competition. Our website provides a space where artists can create their profile and register their works. They just need to photograph their works (up to three images maximum) and attach the files in JPG format. The entry fee for participating with one work is \$55 (approx. €50), and from the second work onwards, the price reduces to \$33 (approx. €30). In the young artist category, prices are \$38 (approx. €35) for the first work and \$16 (approx. €15) for each additional work.

The registration period ends on February 15, 2025. Then, a prestigious international jury formed by painters, curators, collectors, and gallery owners from five continents will select the 200 finalist works. The organization, with the advice of the jury, will decide which finalist works will be featured in the final exhibition, at the prestigious Ateneo de Madrid, where another physical jury composed of renowned painters from the global art and culture scene will award the main prizes included in the competition rules. At least 50 paintings will be selected and seen by tens of thousands of people between June 5 and 22, 2025.

One of the great attractions of TARGET is the visibility that Madrid will give to the artists. No other city brings together three of the world's most outstanding art galleries in so few meters; and the final exhibition will be located in that golden mile of art, a few minutes' walk from the Prado Museum. The exhibition will attract the attention of a substantial audience after the works are revealed in a preview for collectors, sponsors, and entrepreneurs, so they can be acquired.

Of course, the other great value of TARGET is the unparalleled number of prizes it awards. More than \$45.000 (approx. €43.000) in cash will be distributed among the winners, divided into four main prizes (\$13000 for first place, €6500 for second place, \$4300 for third place, and \$4300 for the Target Fusion prize), ten additional prizes of \$550 each for the first place in each category, and acquisition prizes exceeding \$13500. Furthermore, more than forty awards in art materials, training, and promotion valued at over \$10900 will be given out. In total, more than \$ 57000 in prizes make this competition one of the most important in the world.

The award ceremony will be attended by personalities from the art world, culture, sports, and politics, in addition to numerous media outlets. A unique opportunity to open the doors to success. The competition starts now. GOOD LUCK TO ALL! And thank you for being part of this artistic community.

5. PRIZES

ART. 23.- The TARTGET PAINTING PRIZE competition offers financial support to artists and a magnificent opportunity to highlight their work. We promote living creators. Our objective is to give visibility to the works and open them to new markets, collectors, media, and social networks.

“RULES AND PRIZES OF THE COMPETITION”

The Payments made by the Organization will be subject to the tax provisions imposed by Spanish Law, with the corresponding withholdings applied (prizes with VAT included and 19% personal income tax withholding) if applicable.

ART. 24.—TARTGET PAINTING PRIZE has initially established a broad catalogue of prizes, which positions it as one of the major competitions worldwide. However, the organization works daily with new sponsors, so it is very likely that during the registration period, this catalogue of prizes will increase. If so, it will be announced through the website and social networks.

It is important to note that the same work may receive several awards or the same painter may receive different awards with different submitted works.

ART. 25.—All the awards outlined in these rules can be awarded to any participating artwork. The exception is that works entered in categories 8 (Conceptual-Collage) and 9 (Abstraction) cannot compete for the Gold, Silver, or Bronze Tartget awards. For these styles and painting techniques, an exclusive award has been created: the Fusion Tartget. Similarly, only individuals under 25 years old are eligible for the Young Artist Award.

In the three main awards, the winning artwork becomes the property of the organization or sponsor. In return, the winning painter receives the cash amount assigned to each award.

If you only wish to participate in some of the main awards because you believe the value of your submitted work is higher, you can indicate this by selecting the specific main awards you want to compete in at the time of registration.

ART. 26.—All the prizes included in this catalogue include the promotion of the winners on the official social media accounts of the sponsors of each prize, as well as on those of TARTGET PAINTING PRIZE. Many of our sponsors have communities of over hundreds of thousands of followers, so the winning painter will obtain, in addition to the prize, great visibility and reach, which adds an extra value to the achievement of each prize.

ART. 27.—The winning, finalist, and accepted works for the

collective exhibition will be promoted and displayed on our website. Additionally, as part of our collection, the winners will remain permanently showcased on the website.

The following prizes are established:

The objective is to open a dialogue with the resident artists that results in a site specific intervention. Our philosophy is always to create an interaction with the territory, to inquire about the position of an artist in front of a specific context, whether is the space itself with its architecture and history that already have a strong identity, be it a cultural dialogue with the neighborhood or the city and/or with the language, generating new codes that allow artists to expand their artistic research, perhaps breaking boundaries in terms of cultural constructions, techniques, of philosophical approaches and finally repositioning in front of a questioning of the conceptualization of the work itself. The residence is designed each time specifically for the resident and concludes with the opening of an exhibition.
